

## OBJECTIVE

As a junior at UAB pursuing a degree in Computer Science, I have developed a strong foundation in software development, problem-solving, and technical troubleshooting.

My academic coursework has provided me with hands-on experience in programming languages like Java and Python, while collaborative projects have honed my teamwork and communication skills.

I am eager to apply my knowledge in a practical setting, gain exposure to real-world IT environments, and contribute to innovative solutions.

## ACADEMIC PROJECTS

- **Search Algorithms**: Implemented linear and binary search algorithms to optimize data retrieval processes.

- **Sorting Algorithms**: Developed various sorting algorithms, including selection, insertion, merge, heap, and quicksort, enhancing data organization and efficiency.

- **Facial Recognition Program**: Created a facial recognition program to accurately identify individuals from video.

205-565-9787

I bring a strong foundation in technology and problem-solving to the table. My experience working on service desks, managing hardware setups, and handling software migrations has equipped me the ability to thrive in fast-paced environments.

I am confident that my ability to adapt, combined with my passion for technology, would make me a valuable addition to your team.

## ACADEMIC ACHIEVEMENTS:

Associates Degree in Computer Science Jefferson State 2022

Phi Theta Kappa Honor Society

Sigma Chi Eta Communications Honor Society

National Honor Society of Leadership and Achievement

Sigma Kappa Delta English Honor Society

Mu Alpha Theta Honor Society

## EXPERIENCE

### EPPTech/ Technician

April 2024 -September 2024, Birmingham, AL

Provided service desk support, managing new machine setups and email migrations, including tasks such as installing VPNs, antivirus software, and ensuring seamless transitions between Exchange-based services and Microsoft platforms.

### EVOLV.IT/ Procurement and Configuration

August 2022 -June 2023, Birmingham, AL

Configured and deconfigured new and used hardware for clients, including refurbishing and recycling when required. Managed software installations and monitored internal storage of devices handled at the service desk.

### MIKES MERCHANDISE/ Warehouse Lead

May 2019 - July 2022, Pelham, AL

Maintained balanced warehouse operations by managing the flow of incoming and outgoing pallets of various types. Ensured cleanliness of internal and external storage areas, while overseeing daily workload allocation among employees. Additionally, supported sales efforts and prioritized customer satisfaction to drive business success.
